

FULL SWING™ SIMULATORS

The Ultimate Indoor Golf Experience.

THE GOLF SIMULATOR TECHNOLOGY TRUSTED BY THE PROS.

WOODS

DAY

► The accuracy and reliability of the Full Swing simulator is unparalleled and why I choose it for my home.

FURYK

► Full Swing's Dual Tracking shows me the curvature of the golf ball, providing the most realistic effect, just like I'm hitting outside.

Their new technology is impressive, as it allows me to shape my shots the way I want to. It just feels real. I use my simulator to practice every type of shot from tee to green. Rain or shine, day or night I can get my practice in. I have seen what's in the product pipeline for the next several years and am very excited to be a part of the Full Swing family.

SPIETH

SNEDEKER

► Full Swing's innovative tracking technology provides the most realistic and accurate simulator experience in golf and will provide me with impressive feedback to optimize my game.

HARRINGTON

► Full Swing golf technology is an absolute game changer for me and my practice routine.

I recently bought a house in Dallas and chose the Full Swing golf simulator for my new home. I'm a big fan of their technologies and wanted a practice solution at home that I can trust. When it's time to work on my game, I can fire up my sim and get meaningful data and feedback. The Full Swing sim is the closest thing to being out on the course.

SPORT SERIES

Starting at \$21,900

Featuring the industry leading *camera-based*
dual tracking technology.

SPORT MINI

More affordable components.

Metal frame and fabric enclosure.

Space Requirement:
9' H x 12' W x 17.5' D

STARTING AT \$21,900

SPORT STANDARD

More affordable components.

Metal frame and fabric enclosure.

Space Requirement:
10' H x 13' W x 17.5' D *

STARTING AT \$29,900

SPORT WIDESCREEEN

More affordable components.

Metal frame and fabric enclosure.

Space Requirement:
10' H x 17' W x 20' D *

STARTING AT \$35,900

*Additional sizes available.

PRO SERIES

Starting at \$34,900

Featuring the industry leading *infrared* patented dual tracking technology.

PRO 1

Metal frame and fabric enclosure.

Ceiling and floor tracks.

Upgraded components.

Space Requirement:
10' H x 13' W x 17.5' D *

STARTING AT \$34,900

PRO 1 WIDESCREEN

Metal frame and fabric enclosure.

Ceiling and floor tracks.

Upgraded components.

Space Requirement:
10' H x 17' W x 20' D *

STARTING AT \$44,900

PRO 2

Solid wood enclosure.

360 degree tracks.

Premium components.

Custom design and installation services.

Space Requirement:
10' H x 13' W x 17.5' D *

STARTING AT \$49,900

PRO 2 WIDESCREEN

Solid wood enclosure.

360 degree tracks.

Premium components.

Custom design and installation services.

Space Requirement:
10' H x 17' W x 20' D *

STARTING AT \$64,900

*Additional sizes available.

SOFTWARE

WHERE IN THE
WORLD DO YOU
WANT TO PLAY?

84 CHAMPIONSHIP COURSES

Live, fluid 3D environments.
Multiple camera angles.
Real time daylight scenarios.
Customizable interactive practice facility.
Customizable weather and course conditions.
36 different modes of play.

MULTISPORT GAMES

Our MultiSport packages bring the excitement of real sports into your home or business with incredible precision, real sports equipment and amazing life-like game play.

Bring the excitement of real sports into your simulator.

We've combined some of the most popular sports on the planet right into your simulator that are sure to get your heart pumping.

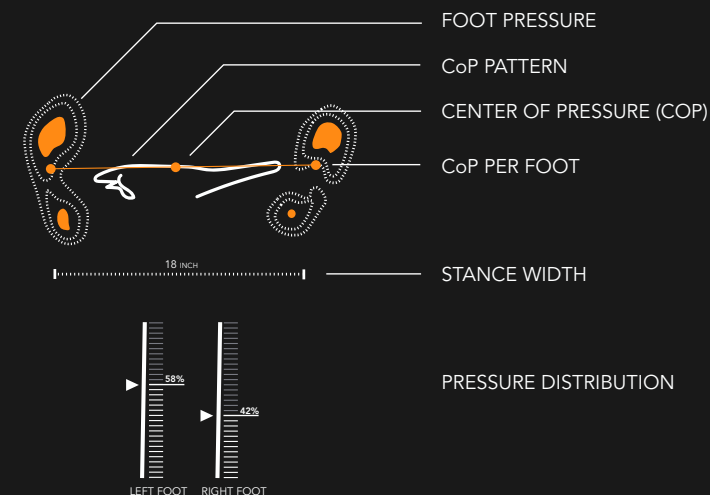

HD VIDEO + BALANCE PLATE + SOFTWARE TOOLS + SIMULATOR

Your high definition video analysis solution for swing improvement.

Pressure Distribution

The fully integrated Swing Catalyst system gives you a better understanding of your golf swing by showing how your feet are experiencing pressure from the rest of your body being in motion. This means that you can easily spot whether you are leaning too far back, forward, left or right at any part of the swing.

All Synchronized in One Place.

The Full Swing simulator, balance plate data, high definition video, and intuitive software tools are perfectly synchronized to provide a complete overview of your swing in motion.
